

To: Squamish Nation Membership

Please consider electing me into Chiefs and Council because I want to:

Protect our lands for the future of our generations to come. I live for the people and abide the treaties set forth for our people. I am a teacher to my grandsons, teaching them to fish to eat and to feed our people.

Straighten out the housing situation that our people face today is another one of the few areas that I will do my best to straighten the kinks and house our people at a faster pace. I truly believe in peace and equality for all.

Truthfully yours,

Cody B. Mathias
