- Played North Shore Indians Lacrosse since I was 3 years old.

Top 3 reasons why I am running for Chief & Council

- To help develop our community and build wealth for our people through Economic Development.
- To help restructure how the Nation does business and communicates with members. We do not have the best reputation when it comes to business, that needs to change.
- To bring the power back to the community. Everyone is in the dark, including myself. This is not how you look out for the best interest of the people. We all need to be heard and we all need to know what business is being conducted on behalf of OUR Nation. TRANSPARENCY!!!

Platform

As a councillor, my main goal would be to help develop our lands to it's highest and best use. Our riches are in our lands and for our Nation to thrive we must develop with the future in mind. One thing that past and current council hasn't seemed to realize is, we have the land!!! That means we have the power to choose who we want to work with and what should be brought to the table.

Through developing, we will demand community contributions from developers who are looking to partner with us. City's and Districts do this when a developer is attempting to get more density on land. Community contributions would include: Elder Care facility, Indoor/Outdoor Lacrosse box, addition to the school, Housing, etc. Being able to demand these will allow us as a community to attack all the issues that need to be addressed. Basically, let's develop our lands so we can build our community.

Economic development is my main platform, but with economic development comes a huge duty as an elected councillor to be transparent and open about any dealings when it comes to Nation lands. This is the same duty as a Realtor 'To look out for the best interest of your client', in this case my people. My plan to be transparent is simple, quarterly reporting to membership about all business transactions.

Before we enter in to a Request For Proposal on any Nation Lands, membership will be consulted on the highest and best use of that lands.

Transparency does not stop there.

- I am open to council meetings being streamed live.
- No in-camera, unless a member is making a complaint or has a personal issue they do not wish to disclose.
- Having all Rules, regulations, by-laws, and processes followed by council posted online for ALL to see.
- All matters that may affect the Nation!!!

Regarding the governance manual, membership needs to be consulted.

Regarding voting reform, I am in full agreeance with passing this through. It shows a lack of respect towards the people and the reform committee who spent a lot of time putting it all together.

VOTE FOR CHANGE, VOTE FOR HOPE, VOTE FOR OUR FUTURE
