

OCTOBER 2023

WOODFIBRE LNG & FORTIS BC EAGLE MOUNTAIN GAS PIPELINE PROJECTS

Update from Skwxwú7mesh Úxwumixw Rights & Title
and Environmental Working Group

SQUAMISH NATION BOOTS ON THE GROUND

Ta na wa Yúus ta Stitúyntsám (Rights and Title Department) will train and hire Indigenous Monitors to monitor the construction of the FortisBC Eagle Mountain Pipeline (EGP) to transfer natural gas from north of Coquitlam to Swiýát (the WoodfibreLNG site). The training will include environmental and archaeological training. The monitors will work closely with the FortisBC and WoodfibreLNG environmental inspection teams to observe construction activities, discuss concerns, and find solutions. They will be the eyes and ears for the Nation on-site.

FortisBC BC Rail Site Construction Activities

Starting late October FortisBC will start delivering pipe to the BC Rail Site in preparation for tunnel construction. In order to mitigate any impacts to Yekwaupsum residents, FortisBC has reduced the volume of trucks from 80 to 50 per day (approximately 5 per hour) with reduced speed of 15 km/hr in and around Yekwaupsum 18. In addition, they plan to be adaptively managing any concerns if they do arise.

The hours for the deliveries will be 7 am to 6 pm Monday to Friday, and 8 am to 6 pm on Saturdays, for the three week period.

Residents that have issues or complaints, please contact Whitney Joseph at swiyat@squamish.net or 778-966-1117.

Take a look into the future!

Are you interested in viewing what the future WoodfibreLNG facility will look like? They now have the option to view it via virtual reality!

To schedule a 20 min virtual reality tour, contact Whitney Joseph at swiyat@squamish.net or 778-966-1117.

WoodfibreLNG & FortisBC EGP Employment & Training Opportunities:

For anyone interested in project employment and training opportunities please contact Rebecca Billy at rebecca_billy@squamish.net or 236-308-2711

HAVE YOU BEEN IMPACTED?

Has your cultural use on our traditional territories been impacted in ANY way by the current pre-construction activities that are taking place?

Please report immediately to Whitney Joseph
