The goal of the program is to provide a holistic approach to introduce and develop basic skills using fun games and experienced hands on coaching techniques. It is designed to teach boys and girls about the traditions of the game as well as the basics of lacrosse including catching, throwing, cradling, ground balls and shooting. It is inclusive of all and intended for youth who may be introduced to lacrosse for the first time and/or who would like to find out if the sport is appropriate for them.

Goals and Objectives

- Introduce and develop basic skills using fun games and experienced hands on coaching techniques,
- Share history, values and traditions of the game using innovative, unique and integrated methods,
- Support youth physical athletic and movement skills,
- Support communication skills,
- Introduce both individual and team lacrosse specific skills,
- Introduce youth to elite professional lacrosse athletes both past and present,
- Support local youth lacrosse development and growth in the community.

A Unique Approach

Lacrosse was first declared the National Game of Canada in 1859. In 1994, Parliament passed the Canada's National Sport Act which declared lacrosse to be "Canada's National Summer Sport", with hockey as the national winter sport. The game has a long history in the Lower Mainland, including First Nations People. It is a healing game and provides strong principles of First Nations culture and respect as well as personal growth to all people from all cultures.
