

May 25, 2018

On the behalf of Education, Employment & Training Department (EE+T Department) we are requesting statistics from Squamish Nation community members.

If you have received a post-grad credential, either through the post-secondary program, personal funding, or funding from any other Squamish Nation program, please send the information to Lisa Paull and we will add it to our EE+T Department database. Our goal with the database is to be able to contact members with career and job opportunities that we are aware of.

When you send the information (see reverse of this page, or the www.squamish.net web site) please include:

- Your name
- Email
- Phone number
- Area of study
- What level of certification you received (i.e. Certificate, Diploma, Undergraduate, Masters or PhD)
- The institution you received it from

While we are hoping to get all the above information, our request is voluntary, so only include what you wish to share. Please also note the area covered is for all post secondary studies, not just the traditional university or college streams.

Please email lisa_paull@squamish.net, or drop the information off at the main office attention Lisa Paul.

Thank you for participating in our data collection and if you have any questions please call Lisa Paull at 604-980-4553.
