PROJECT OVERVIEW

Located on the traditional, ancestral, and shared territories of the xʷməθkʷəy̓əm (Musqueam), sk̓w̓w̓7mesh úxwumixw (Squamish), and sə́lilwətał (Tsleil-Waututh) Peoples, the future St. Vincent's: Heather site sits beside smi:nmənt (Little Mountain), a place once rich with salmon-bearing streams and home to wildlife like elk, beavers, and bears. This land holds deep cultural and ecological significance, and its future use reflects Providence Health Care's commitment to reconciliation and community service.

St. Vincent's Heather represents a new era in seniors' care as a 13-storey, 240-bed long-term care home that will reimagine caregiving, empowering seniors to live life on their own terms. Located on the historic site of St. Vincent's Hospital, which served the Vancouver community for 65 years, this new home will offer wraparound services tailored to residents' personal needs and preferences through Providence Living's 'Home for Us' model of care.

The home is designed with community in mind, featuring 20 households each accommodating 12 residents in single-bed rooms with wheelchair-accessible ensuite bathrooms, plus common spaces that replicate the warmth and comfort of a typical home. On the main floor, St. Vincent's Heather will feature community spaces including primary care services, All Nations Sacred Space for Indigenous residents and visitors, sacred space for worship and reflection, community garden, childcare centre, and various amenities that will enable residents to live vibrant and active lives while staying connected to their community.
