

Introducing our Strategic Plan, 2026-2030

Ha7lh skwáyel ta newyáp (good day to you all)

We are proud to be sharing – together – our Ta S7ulh Skwelkwálwen kwi Esch'éch'ewát (Strategic Plan, 2026-2030).

Our Squamish Nation Strategic Plan, 2026–2030 differs from previous planning in that it is limited to four focused priorities. These priorities are supported by objectives and commitments to hold us accountable to Squamish People.

The Strategic Plan reflects the vision set out in *Úxwumixw 2050: Skwxwú7mesh Generational Plan*. It carries forward the work of past Councils and the hope that Squamish ancestors held — that Squamish Nation would not just succeed but thrive for generations to come.

There are three parts to this Strategic Plan, all working together. The vision was gifted by the Squamish People who described the Nation they want for the next generation. The direction comes from Council, as they respond to the urgent needs of Community and set the path for the future. And both the vision and direction are realized by our Nation staff who carry out this important work.

The pillars of the Strategic Plan are four priorities setting the focus of our work during the next four years:

- Build Healthy, Safe, Complete Communities
- Deepen a Sense of Purpose, Belonging and Financial Well-Being
- Expand Protection & Control Over Lands and Waters
- Strengthen the Foundation for the Nation's Success

Community gave us clear direction, and it is our responsibility to show our work. We invite every Squamish Person to read this plan, and through regular progress reporting, we invite you to hold us accountable to every commitment.

Together we can realize the vision the Squamish ancestors imagined for Community today, and for future generations.

Chen wanáxwstumi (respectfully)

Sxwíxwtn, Wilson Williams
Council Chairperson

Sheldon Tetreault
Chief Administrative Officer
