UPDATE

Woodfibre LNG & Eagle Mountain Gas Pipeline Projects

Ta na wa Yúus ta Stitúyntsaḿ Rights and Title | Community Update | October 26, 2026

Keeping Community Informed

Sḵwx̱wú7mesh Úxwumixw has a similar regulatory role as the provincial or federal governments in oversight of the **Woodfibre LNG** Project and **FortisBC Eagle Mountain Gas Pipeline** Project. The role, and 33 conditions, are part of the legally binding Squamish Nation Environmental Assessment Agreements (SNEAAs). Our Rights and Title Department oversee the conditions of the agreements and are committed to keep Membership informed and updated on these projects.

Updates

Further information about Flaring

Flaring is expected to start at Woodfibre LNG in mid 2027

Ta na wa Yúus ta Stitúyntsaḿ (Rights & Title) staff are continuing to share information about WoodfibreLNG flaring (Aug, Sept). This update includes links to what flaring could look like from St'á7mes Reserve.

WoodfibreLNG Flaring Simulation video

In our last newsletter we described what flaring could look and sound like from St'á7mes Reserve. WoodfibreLNG have now shared a video about what flaring could be like from that location. You can view it here: Woodfibre LNG Flaring Simulation.

More information is available here: Light, Noise & Air Quality | Woodfibre LNG.

Air Quality Monitoring Needed at St'á7mes

Ta na wa Yúus ta Stitúyntsaḿ are working with WoodfibreLNG to develop an air quality monitoring program that considers data collection from St'á7mes Reserve. The Nation would like data collection to start early so baseline data is available before flaring begins. Meetings continue with the BC Energy Regulator, Environmental Assessment Office and WoodfibreLNG to discuss details of air quality monitoring through permits and management plans. We are seeking transparent communication about flaring and air quality monitoring.

Illustrative simulation of flaring at the Woodfibre LNG facility.

Flaring Notifications

WoodfibreLNG is obligated to notify the public, including our Community, about *planned* flaring events at least 24hrs in advance – for any flaring events with gas volume greater than 10,000m^3 and/or four hours in duration. Additionally, notification is required within 24hrs for *unplanned* flaring events that fit the same parameters above.

- **Flaring will be more frequent during commissioning of the facility (first six to eight months), expected to start mid 2027.**
- **Then there will be a gradual reduction in flaring as operations stabilize.**
- **During normal operations (after two years of operations), flaring is likely to be less than once a month.**

How would you prefer to receive flaring notifications?

Through the Voyant app, website, social media, newsletters, local radio or newspaper, meetings or other ways?

Share your preference with Woodfibre LNG at info@wlng.ca or the Nation at swiyat@squamish.net.

More Information on Flaring & Air Quality

- Squamish Nation Project Updates: August | September
- WoodfibreLNG website:
  - Future Operations – **Commissioning, startup, operations, and flaring.**
  - Flaring Video – **How flaring works and what to expect.**
  - Light, Noise & Air Quality – **Flaring impacts and animation.**
  - Fact Sheets – **Key information about flaring.**
  - Air Quality Monitoring – **Flaring monitoring information.**

UPCOMING EVENTS

You are invited — Open House

Rights & Title are hosting a SNEAA Open House at Totem Hall on Nov 3 at 11 am.

This is the re-scheduled open house from September. Topics include benefits to the Nation, Indigenous monitors and emergency response to flaring.

Tuesday, Nov. 3
11 am – 1 pm

Totem Hall
1380 Stawamus Rd, Squamish

RSVP Please let us know if you are coming: **swiyat@squamish.net** or **778-966-1117**

Additional Open Houses

Open Houses are also being hosted by WoodfibreLNG on their Waste Discharge Authorization applications. These applications are submitted to the BC Energy Regulator for air emissions and effluent (stormwater).

Tuesday, Nov. 17
4:30 – 7:30 pm

Beach Community Hall
101 Church St, Britannia Beach

Thursday, Nov. 19
4:30 – 7:30 pm

Executive Suites
40900 Tantalus, Squamish

We want to hear from you

If you have been impacted as a result of current construction from the projects:
